3.1 Lender has on [●] (“**Date of issue**”) agreed to subscribe convertible bonds issued by Borrower for a total amount of nominal DKK [●], divided into bonds with denominations of nominal DKK [●] and including serial no. [●] - [●] (“**Loan amount**”), which is paid to the Borrower at the latest [xx.xxx.xxxx] (“**Date of payment**”).

4 Interest

4.1 A fixed interest (“**Interest**”) is calculated of the Loan according to this Bond of 6 per cent p.a.

4.2 Interest is calculated and added the Loan every quarter retroactive at the last day in every quarter. Interest is added the first time on 31 March 2017 for the period from Date of issue to 31 March 2017. Interest is added up until repayment of the Loan. Interest for periods that do not constitute a whole quarter, is calculated for the actual number of days passed based on an interest year of 360 days.

4.3 Added Interest is payable 10 banking days after expiration of a quarter.

5 Repayment

5.1 Unless Lender at the relevant time has given notice about conversion of the Loan into Shares, the Borrower shall repay any outstanding amount with accrued, added, unpaid Interest on 15 December 2020 (“Date of maturity”).

5.2 The Loan amount is instalment-free, as Borrower has no right to repay, and Lender has no right to demand payment of the Loan amount completely or partly before the Date of maturity. Lender shall have right to demand repayment with 30 days notice in case of (i) liquidation, (ii) sale of Borrowers enterprise or significant parts hereof before Date of maturity/conversion, (iii) sale of a controlling part of the shares in Borrower before Date of maturity/conversion, (iv) restructuring which involve transition of controlling influence in Borrower, or (v) by Borrowers significant breach of financial loan agreements.

5.3 The Loan and the Bond shall rank at least *pari passu* with all other unsecured non-subordinated obligations of the Borrower.

6 Conversion

6.1 Lender can at any time with 15 days prior written notice to Borrower convert the outstanding amount according to this Bond or a part hereof, however in minimum amounts of DKK 5,000,000 per conversion, to Shares in Borrower in accordance with this item 6. However, no conversion can be done for the first twelve (12) months after the Date of issue, as this limitation is not valid, in case a public purchase offer is submitted to the shareholders in Borrower.

6.2 Lender can however at the latest convert the outstanding amount according to this Bond with effect from 1 October 2020 at 5 p.m. Danish time. In case Lender wants to convert the outstanding amount according to this Bond with effect from 1 October 2020 at 5 p.m. Danish time, notice hereof shall be given to the Borrower at the latest one week after release of the Borrowers accounts for Q2 2020.

6.3 The conversion price is determined to 46.15, so that an amount of DKK 46.157 is converted to one share in Borrower with a nominal value of DKK 10.00 (“**Conversion price**”).

The most significant examples of changes in the company's capital structure are capital increases, capital reductions, merger, demerger, issuance of bonus shares, issuance of stock options and issuance of convertible debt instruments.

7.2 Changes in the value of the Bond, as consequence of secondary effects of the changes in Borrowers capital structure, including as a consequence of the operation of the Borrower's enterprise, does not give rise to an adjustment of the Conversion price and/or the Share amount.

7.3 There shall be no regulation of the Conversion price or the Share amount due to payment of yearly dividend which does not in total exceed DKK 1 per share at nominal DKK 10, issuance and subscription of new shares at market price, purchase or sale of own shares at market price, issuance of warrants to market price, issuance of convertible debt instruments at market price or liquidation of Borrower.

7.4 In case of issuance of bonus shares, issuance and subscription of new shares below the market price (except issuance of shares or warrants to management and employees) or a change in the denomination of the Shares, the Share amount shall be adjusted accordingly.

7.5 Any adjustment according to this item 7 shall be calculated by Borrowers auditor elected on the general meeting.

7.6 In case Lender or Borrower disagrees on regulation carried out under item 7.5, a party can request that the regulation is determined by an independent evaluation done by two independent valuation experts appointed by the Association of State Authorised Public Accountants. The costs of the valuation under item 7.6 are paid by the party requesting the independent valuation. This does however not apply if the breach consists in one of the mentioned matters in item 10.2. The conversion right, cf. item 6, is maintained until repayment including Interest and any default interests are completed.
- 10.6 In case Borrower otherwise than listed in item 10.1 and 10.2 neglects its obligations according to this Bond, Lender is entitled to enforcement of specific performance or to claim damages for any losses according to general rules of Danish law. Such condition can however not call for cancellation of this Bond or give right to extraordinary conversion. Item 10.3 – 10.5 shall not apply in cases covered by this item 10.6.
- 10.7 In case of breach according to one of the reasons mentioned in item 10.1, this Bond can be enforceable according to Section 478, Subsection 1, No. 5 of the Danish Administration of Justice Act.

5.2 The Loan amount is instalment-free, as Borrower has no right to repay, and Lender has no right to demand payment of the Loan amount completely or partly before the Date of maturity. Lender shall have right to demand repayment with 30 days notice in case of (i) liquidation, (ii) sale of Borrowers enterprise or significant parts hereof before Date of maturity/conversion, (iii) sale of a controlling part of the shares in Borrower before Date of maturity/conversion, (iv) restructuring which involve transition of controlling influence in Borrower, or (v) by Borrowers significant breach of financial loan agreements.

However, no conversion can be done for the first twelve (12) months after the Date of issue, as this limitation is not valid, in case a public purchase offer is submitted to the shareholders in Borrower.

6.2 Lender can however at the latest convert the outstanding amount according to this Bond with effect from 1 October 2022 at 5 p.m. Danish time. In case Lender wants to convert the outstanding amount according to this Bond with effect from 1 October 2022 at 5 p.m. Danish time, notice hereof shall be given to the Borrower at the latest one week after release of the Borrowers accounts for Q2 2022.

6.3 The conversion price is determined to 49.21, so that an amount of DKK 49.21 is converted to one share in Borrower with a nominal value of DKK 10.00 ("**Conversion price**").

6.4 Any outstanding amount according to this Bond, which is converted in accordance with this item 6., shall at issuance of the relevant Shares be acknowledged as completely settled and will no longer be considered as an outstanding amount according to this Bond.

The most significant examples of changes in the company's capital structure are capital increases, capital reductions, merger, demerger, issuance of bonus shares, issuance of stock options and issuance of convertible debt instruments.

7.2 Changes in the value of the Bond, as consequence of secondary effects of the changes in Borrowers capital structure, including as a consequence of the operation of the Borrower's enterprise, does not give rise to an adjustment of the Conversion price and/or the Share amount.

7.3 There shall be no regulation of the Conversion price or the Share amount due to payment of yearly dividend which does not in total exceed DKK 1 per share at nominal DKK 10, issuance and subscription of new shares at market price, purchase or sale of own shares at market price, issuance of warrants to market price, issuance of convertible debt instruments at market price or liquidation of Borrower.

7.5 Any adjustment according to this item 7 shall be calculated by Borrowers auditor elected on the general meeting.

7.6 In case Lender or Borrower disagrees on regulation carried out under item 7.5, a party can request that the regulation is determined by an independent evaluation done by two independent valuation experts appointed by the Association of State Authorised Public Accountants. The costs of the valuation under item 7.6 are paid by the party requesting the independent valuation.
